

Recycling, Reusing, Reducing, Refusing and Re-thinking

How we look after the natural world starts with you!"

Recycling can sure be hard work but it is very important work. If we don't recycle, we will run out of natural resources and our land fills will become mountains of junk. Help Cameron bring all his recycling to the blue box.

Draw a nature scene on the other side of this page, with you in it doing an activity you love to do.
